

Witness the magical synergy of
E-Commerce with Blockchain.

ShopicoIn is a cryptocurrency based on the concept of propagating convenience in financial transactions and it is this concept that makes it a superior payment solution. It is an answer to the search for a dependable digital currency backed by modern, real-world applications. ShopicoIn promises to start off a new wave of decentralized and trusted payment in world E-Commerce ecosystem, which would work along with the current platforms. Our competitors in the market would include all the E-Commerce platforms that fail to provide viable benefits before consumers. Consumers would have the power to both gain and retrieve ShopicoIn tokens on our e-commerce marketplace, Shopikuchbhi. One of the basic benefits of being on Ethereum Block chain would be to merge the advantages of Payments & Rewards in certain products where customers would be excited to get hooked in via utilization of Blockchain technology.

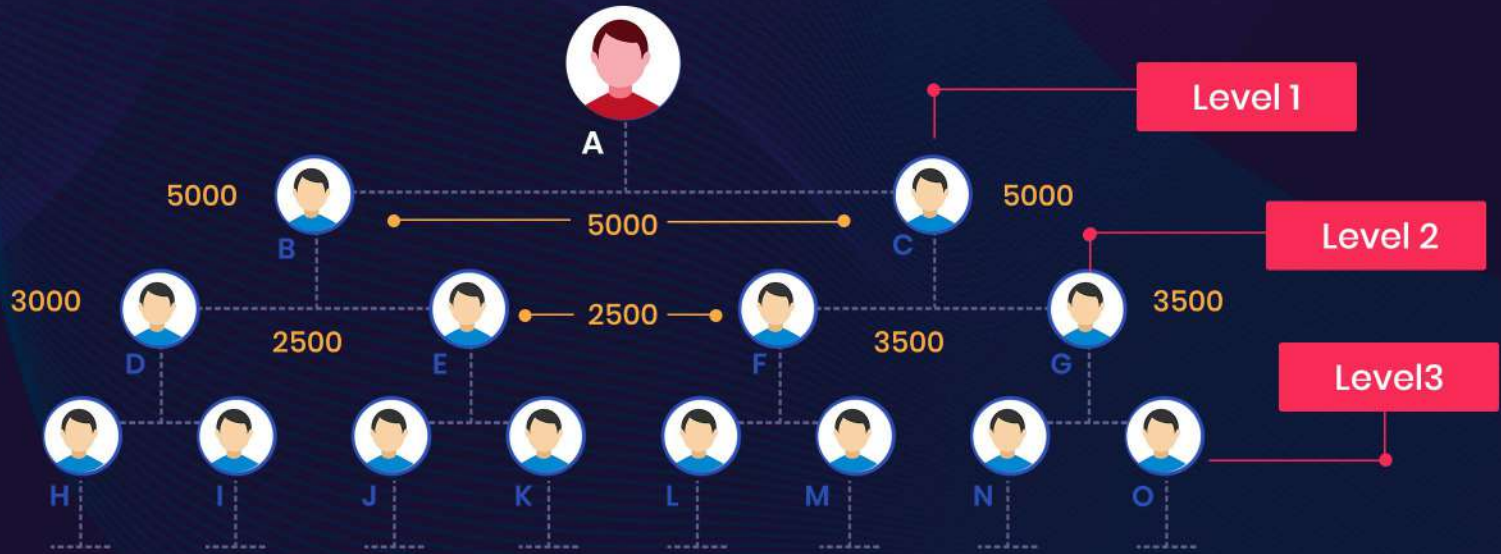

Our Business Type

 Shopikuchbhi – The E-Commerce Marketplace

 Clubbing99 – the Online Casino

■ Coin Name	Shopicoin

Upto 10 Levels

If A refers B & C hence, A will get 2% of direct referral rewards from B & C. Consider B & C holds 5000 SPC So, A will 2% of 5000 SPC for B & 2% of 5000 SPC from C as a referral income. These tokens will be redeemed in Ethereum.

Now, B & C are level 1 of A so, user A will be getting 50% of the matching amount. In this case, B held 5000 SPC & C held 5000 SPC hence, The matching amount is 5000 SPC. So, user A will get 50% ie., 2500 SPC which can be redeemed in ETH.

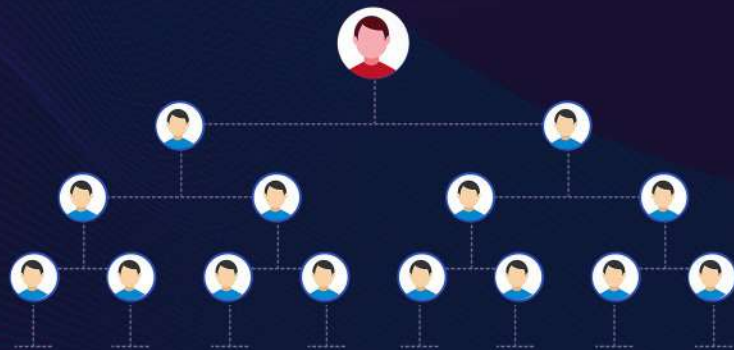

User D, E, F, G are on level 2 for user A & level 1 for user B & C. So, consider D holds 3000 SPC, E holds 2500 SPC, F holds 3500 SPC & G holds 5000 SPC.

So, for B the matching amount will be 2500 SPC hence, B will get 50% level income ie., 1250 SPC.

For user C the matching amount will be 3500 SPC so user C will get 1750 SPC which will be redeemed to ETH.

For user A the matching amount is 2500 SPC so, user A will get 1250 SPC as level 2 income.
